

# Simply Clear<sup>®</sup> Series Water Softeners

*Highly Efficient Softening - Amazingly Smart Performance*

Advanced microprocessor control technology allows **Simply Clear Series<sup>®</sup>** systems to easily provide on-demand clean, soft water.

The system self-adjusts to changes in your household's water usage patterns – so you'll have plenty of quality water when you need it.

## *Why Simply Clear?*

With its state-of-the-art microprocessor, this system practically thinks for itself!

- **Proven savings** – ensures minimal operating costs of household water-using appliances
- **Advanced monitoring** – tracks and self-adjusts to water usage patterns
  - **Programmable operation** – matches system performance to your water conditions and needs
  - **Environmentally Efficient**– uses less water and energy, minimizing your overall carbon footprint
  - **Economically Efficient**– uses less salt, reduces the amount of cleansers needed, and fabrics and water-using appliances last longer

**Built in**   
**the U.S.A.**

# Simply Clear® Series

**Hicksgas  
Simply Clear Series®**  
is an achievement in efficiency!

The **Simply Clear Series®** of equipment is the newest, most advanced system in the extensive line-up of proven, Hicksgas water conditioning solutions. The smartest generation of adjustable water conditioning equipment, this series is engineered specifically to meet the needs of today's health and green-conscious consumer.

**Simply Clear Series®** softeners feature a highly advanced control system with amazing operating efficiencies. By tracking your water usage and automatically adjusting itself, this system can keep pace with the clean water needs of today's on-the-go lifestyles and ever-changing schedules.

A Hicksgas professional will conduct a complete water analysis, and adjust the **Simply Clear®** operating parameters to most effectively remove unwanted hardness and minerals.

This programming versatility is the key to a **Simply Clear®** softeners' ability to minimize water and salt consumption.

**The system designed for a  
custom fit!**

**Shown with optional neoprene sleeve -**  
Machine washable, absorbs moisture and  
reduces condensation.

## Why Simply Clear?

With its state-of-the-art microprocessor, this control system practically thinks for itself.

- Self adjusting regeneration sequence – saves salt and water
- Fully programmable operation to your household's needs – saves salt and water
- Records operating history – easy to ensure efficient operation and service
- Power backup – no clock to set

## Why Hicksgas?

Since 1962 Hicksgas water conditioning professionals have offered only the best in water treatment equipment. In addition to over 60 years experience, other Hicksgas advantages include:

- Locally managed
- Factory-trained personnel
- A complete line of leading-edge water treatment solutions
